

Reef Runner – Facilitator Setup

Everything to do before the girls arrive. ~15 min the first time, ~5 min after.

A • Set up the computers

once

- ☐ **Godot 4.7.1** installed in Applications **DONE**
- ☐ Unzip **ReefRunnerTemplate.zip** onto each computer (or a shared folder).
- ☐ Open Godot → **Import** → pick the folder's **project.godot** → **Import & Edit**.
- ☐ Press **F5** to test: she walks with arrows, jumps with Space. Then close.

If Godot won't open (macOS warning): right-click the Godot app → **Open** → Open. Or System Settings → Privacy & Security → **Open Anyway**. You only do this once.

B • Print the handouts

once

- ☐ **Cheat Sheet** — 1 per girl
- ☐ **Bookmarks** — 1 sheet per 4 girls, then cut
- ☐ **Coloring Page** — 1 per girl
- ☐ **Mod Challenge Cards** — 1 per girl (or per pair)
- ☐ **Facilitator Script** — 1 for you
- ☐ **Guide** — 1 for you (optional, per girl)

All print from the PDFs in your Drive folder or Desktop. Turn double-sided OFF for the bookmarks.

C • Run the session (in order)

day-of

1. **Warm-up:** hand out the **coloring page** as they arrive.
2. **Slides** on the projector — press **F** for full screen.
3. Teach the **4-colour map** (slides 3–8). Go slow here.
4. Give out **cheat sheets + bookmarks**.
5. Either build the 7 steps together, **or** open the **template** and mod it.
6. Finishers get the **Mod Challenge cards**.

D • Your job, in one line

remember

You don't teach Godot — you **point at the 5 colours** and let the girls click.

- ☐ Keep the **facilitator script** next to you.
- ☐ Do one step, let them do it, then move on.
- ☐ **Stop and cheer the first jump.** 🎉
- ☐ Bugs = normal. Use the "Help!" cards, stay calm.

The whole kit — where each piece lives

Guide

full lesson + all the code (screen or print)

Slides	interactive deck to project · + editable PowerPoint
Cheat Sheet	1-page map + 7 steps for each girl
Bookmarks	colour key to tape by each laptop
Facilitator Script	what to say at each slide (for you)
Coloring Page	reef-hero warm-up
Template	ReefRunnerTemplate — a working game they mod
Mod Challenges	12 dares to try in the template

Built for the BGC Summer Camp 2026 Godot track · the "save the reefs" platformer. You've got this. 🐟
